

AC40

The true clinical hybrid

The true clinical
hybrid audiometer
– Stand alone & PC-
based audiometry
in one box

A true hybrid audiometer

The AC40 full two channel audiometer includes all the advanced features and functions needed by a modern clinic.

A true hybrid audiometer

The AC40 allows for complete independent use as well as for full PC-based audiometry with complete Noah and EMR/HIS integration, it is a true hybrid audiometer.

The AC40 provides the best of both worlds for those who like the familiar, classic feel of an audiometer keyboard while simultaneously engaging the power of the PC.

- Operate the AC40 as a stand alone audiometer (no computer)
- Operate the AC40 via computer, and
- Operate the computer via the AC40

As a True Hybrid AC40 offers full control and the flexibility to work as you prefer; even if your clinic has multiple clinicians with individual preferences and needs.

Counseling overlays in the Diagnostic Suite 2.0:

- Phoneme examples
- Sound examples
- Speech banana
- Severity indications

A full counseling solution

The AC40 gives you counseling tools to help engage and connect with your client. Whether you use your main test window or attach an external monitor directly to the AC40, you can utilise a variety of counseling tools available in the Diagnostic Suite 2.0 PC software program. Customizable counseling overlays include phoneme examples, sound examples, speech banana and severity indications.

Design and efficiency

The ergonomic AC40 includes an articulating, high-resolution 8.4 inch color display that presents crystal clear images for easy to read audiograms. The intuitive keypad design enables quick acclimatisation without losing efficiency or speed. Several display choices are available to customize the readout to your personal preference.

"The hybrid interface is
the way of the future"

A wide range of applications

The AC40 offers a comprehensive test battery for a wide range of advanced diagnostic and research applications. AC40 also includes features making it ideal for pediatric applications and hearing aid fitting. It comes with a powerful built in amplifier for sound field applications.

- **Multi Frequency** for tinnitus measurements and ototoxicity monitoring
- **Pediatric Noise** for frequency specific noise testing
- **Automatic Testing** using Hughson Westlake and Békésy
- **Masking Help** and **Auto Masking** (PC suite only)
- **Masking Level Difference (MLD)** - offers a mixture of phase controlled tone and noise stimuli for testing retrocochlear function and CAPD
- **QuickSIN™** for automated speech in noise testing
- **TEN test** for diagnosing dead regions of the cochlear
- **Hearing Loss Simulator** and **Master Hearing Aid** for hearing aid verification
- **SISI** for differentiating between cochlear and retrocochlear disorders
- **ABLB** has its own dedicated screen where any recruitment can be shown in a clear, graphical manner
- **Weber** for distinguishing between a conductive and sensorineural hearing loss
- **High Frequency** up to 20 kHz (optional)
- And more...

**Internal
storage for
1,000 patients
/ 50,000 test
sessions**

AC40 test screens

As a standalone audiometer AC40 provides all the necessary air, bone and masking features required for advanced diagnostic and clinical use. The built-in 8.4" high resolution color display offers dedicated test screens as well as many display and test options.

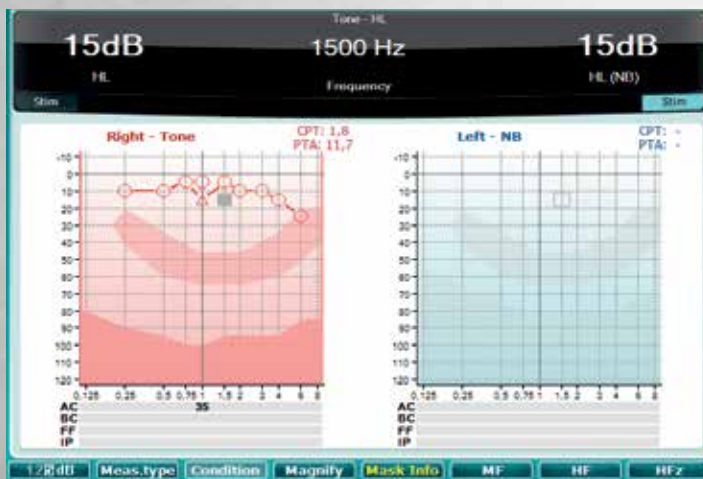

Define
multiple user
test protocols
on the fly

Tone audiometry

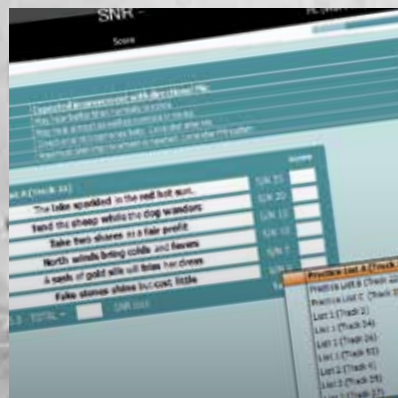

- Automatic CPT and PTA calculation
- User defined symbol scheme
- Speech banana
- Display masking information
- Easy access to main functions
- Built-in wavefiles
- Built-in media player for playing prerecorded speech material

Speech audiometry test features

- Live Voice, CD/MP3 or Wavefile presentations
- SRT, Word Recognition, MCL, UCL
- Recorded Word Recognition Scoring
- Binaural speech for CAPD applications
- Speech Stenger
- Built-in Wavefiles
- QuickSIN™

Tone screen with masking info table – single audiogram mode also available

Dedicated QuickSIN™ test screen

Built-in wavefiles

Diagnostic Suite test screens

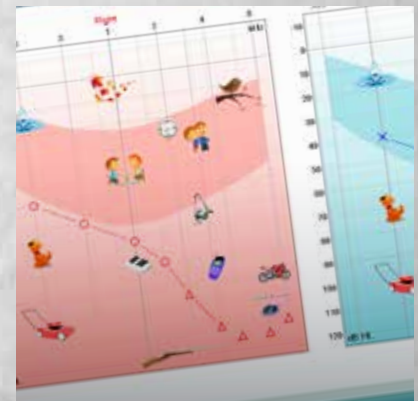

Connecting the AC40 to a PC via the Diagnostic Suite 2.0 software, enables the audiometer to be used as a true hybrid audiometer.

Enhanced usability

- User defined test protocols, reports, and print layouts
- Audiogram comment section
- Customizable user interface
- Easy access to all transducers/signals
- Quick keys for all functions available
- Large patient monitor window to display counseling
- Full EMR interface with XML and PDF export options
- Phoneme scoring
- Audiogram comparison

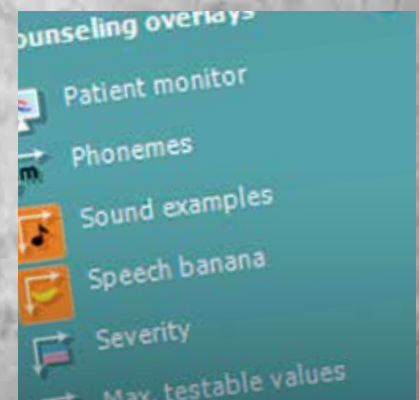

Speech screen – with wave files and tone audiogram view

Patient counseling window – here with sound examples

Tone screen – with speech banana and phonemes

Counseling features

Design your own reports

Interacoustics software suites include a common embedded print wizard. This is a flexible tool that supports reporting requirements for streamlining workflow.

Combined printing and reporting

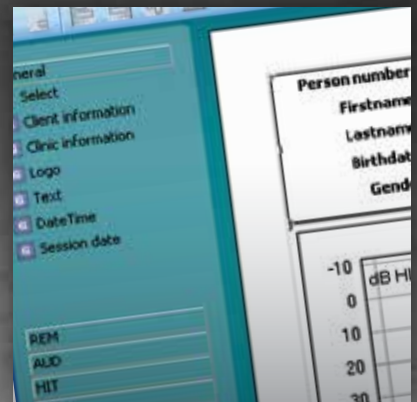

The Print Wizard combines audiometric, impedance and fitting data for full patient reporting.

Unlimited customized templates permit useful alternative templates for different test applications.

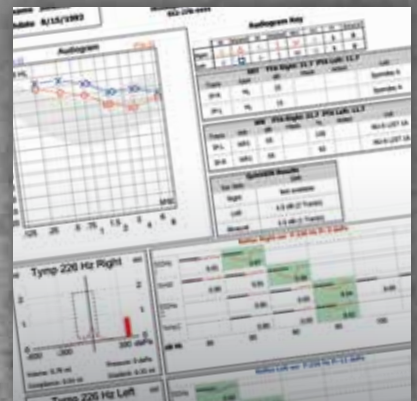

- Retrieve patient demographics from OtoAccess™ and NOAH
- Merge audiometric and impedance test data on a single page
- Text field for session observations and conclusions
- Insert bitmaps such as clinic logo
- Individual session dates
- Highly configurable symbols for quick reference

Print Wizard

Merge and configure input from different sources in the Print Wizard

Easy integration

Through the intuitive and easy to use software suites the AC40 can easily be combined and integrated with other Interacoustics instruments.

The Interacoustics Suites integrate various measurement modules in a common yet intuitive and user friendly way to enable viewing, storing and printing of shared data.

Interacoustics a/s

Interacoustics is a world leading diagnostic solutions provider in the field of hearing and balance assessment. We help the professional audiology world reach new milestones through continuous developments and a constant focus on integration and direct customer value.

With you at all times

Whenever you purchase audiological equipment with the Interacoustics brand on it, you are not just guaranteed a quality product but also highly trained support personnel with specialized knowledge. We operate in over 100 countries worldwide through a carefully selected network of distributors and service centres to ensure that you receive total support and service.

Product specifications

All technical and hardware specifications concerning the AC40 can be downloaded from our website.
